AGOSTO/SETTEMBRE 2018

REMTECH EXPO (19, 20, 21 SETTEMBRE) 2018  
Comunicato Stampa di Presentazione XII Edizione

## Bonifiche, Protezione, Prevenzione, Rigenerazione, Riqualificazione

## Press Release RemTech Expo 2018

**REMTECH EXPO 2018, from September 19th to 21st in FERRARA: REMEDIATIONS, COSTS, DISSEMINATION, CLIMATE, SEISMIC, REQUALIFICATION, REGENERATION AND INDUSTRY**  
[www.remtechexpo.com](http://www.remtechexpo.com)

RemTech Expo is the only permanent international event specializing in the areas of reclamation, natural hazards, safety, maintenance, redevelopment and regeneration of the territory.

This year presents itself in a renewed and expanded, consisting of nine thematic segments, schools, academies, international hubs and innovation poles: REMTECH and REMTECH EUROPE remediation of polluted sites, COAST protection of the coast and ports, ESONDA hydrogeological instability, GEOSISMIC seismic risk, INERTIA sustainability, works and infrastructure, RIGENERACITY urban regeneration and social housing, CLIMETECH climate change, CHEMTECH, innovative chemical industry, and the FOCUS NUCLEAR risks, waste management and decommissioning.

With the maximum involvement of the Authorities and the Enterprises, important steps of approach and **introductory meetings** were organized at the main institutional offices of Rome (Palazzo Montecitorio), from which emerged proposals and reports that will soon be articulated on the Ferrara tables for the phase of annual synthesis, alternating frontal moments with moments of debate of high technical and scientific profile.

Among the **new** features of this edition, the introduction of the three **new thematic segments** - RIGENERACITY, CLIMETECH and CHEMTECH - the establishment of the four **permanent public-private tables** will be created by Snpa, Ispra and RemTech Expo. - 1. BACKINGS AND SEDIMENTS, 2. NATURAL RISKS AND CLIMATE, 3. CIRCULAR ECONOMY AND WASTE MANAGEMENT, 4. INDUSTRY AND INNOVATION - and the launch of **RemBook**, an innovative and interactive tool for studying the remediation and impact 'economy.

The agenda is rich and varied and includes focal **conference moments** including the International Conference on European Markets and Technologies, **the first National Snpa System Conference**, the General States of Reclamation and the "lighthouse" Conferences - Sustainable Ports, Risks natural and climate change, Knowledge of the territory and mitigation of seismic risk, Circular Economy and waste management, Re-qualification and Regeneration, Chemical Industry and Sustainable Development. The scheduled conferences have been accredited for the professional updating of technicians, lawyers and journalists.

There are also numerous sessions on the agenda dedicated to networks and infrastructures (roads, highways, railways) with spotlight on topical topics and a focus on the collapse of the **Morandi Bridge** in Genoa.

In the prestigious exhibition panel, which sees the participation of some key players - **Syndial, Sogin, Versalis, Enel** - and the most qualified companies, there will be two special "islands" made available by the **Chamber of Commerce** of Ferrara for companies. There will also be Snpa, Ispra, the Government Commissariats for the reclamation of illegal landfills and for the re-environmentalization of Taranto, the **Civil Protection** and the **Fire Brigade** of the Emilia Romagna Region, Anci, Ance, **Acer**.

The universities, some important research centers, national and international projects will also be represented - Il Po d'Amare, POSIDON, TECO, LIFE SEC ADAPT, SOS FOR LIFE, INFRASAFE - and many partners including the United Nations Agency for **Unesco**, High School and Mezzadri Engineering.

Part of the exhibition will be reserved for the reception of the **Foreign Delegations**, invited as part of the internationalization project, developed thanks to the contribution of the **Emilia-Romagna Region**. The program includes the participation of appropriately selected delegates, from China, India, South Africa, North Africa (Tunisia, Algeria and Morocco) and Brazil, and the organization of bilateral meetings and round tables with exhibiting companies, with the aim of starting business relationships and new partnerships.

Students are dedicated to a program of "tailor-made" laboratories concerning the issues of land conservation, circular economy, sustainability and safety. A group of students, in parallel, will take care of the filming and interviews with the protagonists, thus becoming the directors of the first **short film** by RemTech Expo.

The three days of the event are closed by the **Graduate and PhD programs**, promoted by Assoreca, AssoAmbiente, CNC, Unione Petrolifera, Sapienza University, and the Special **Awards** - Technological Innovation dedicated to innovative start-ups, Smart Ports, Smart Rivers, Geomatica, Management Emergencies - which will be delivered during the evening event "off" **Meet In emTech** dedicated to networking activities.

Main media partners of the event are **QN Il Resto del Carlino**, the magazine **Recover** and the webtv **RiciclaTV** in addition the Gazzetta Marittima, Il Giornale della Protezione Civile, Edizioni Ambiente, Guida Edilizia, Chemicaweb and a large press *parterre*, portals and specialized social networks.

**What RemTech Expo has imagined is not only an operation of strong awareness but also and above all the consolidation of a competent, proactive and proactive community towards the institutions, the government and the control bodies for the development of a shared strategic plan for the country.**

The inauguration of RemTech Expo, on **September 19th**, will coincide with the reopening of the new exhibition center, completely regenerated after the important adjustment intervention for safety and redevelopment of the structure.

**The Press Conference will be held on September 13 in Ferrara at the Chamber of Commerce (Largo Castello, 10) starting at 11.30. To be present, you must send a request to participate in [secretariat@remtechexpo.com](mailto:secretariat@remtechexpo.com).**

**See you at RemTech Expo 2018!**
