REMTECH EXPO

REMTECH Europe

DESCRIPTION

RemTech Europe, International Conference and Exhibition on land and water remediation markets and technologies, is scheduled for 19, 20, 21 September 2018 in the beautiful town of Ferrara, between Bologna and Venice (in the north-east of Italy).

It is promoted by European Commission's Joint Research Centre (JRC) and RemTech Expo, the most important permanent event on remediation technologies (www.remtechexpo.com).

The aim of the Conference is to share information on knowledge, innovation and case histories, to encourage the development of remediation processes and the application of new and sustainable technologies, and bring together suppliers and customers of available services and technologies, public and private.

The themes the Conference highlights, by involving all the leading European stakeholders, are regulations, current standards, fundraising, proven and innovative technologies, best practices. The Agenda is rich and is design to promote the sharing of knowledge and intercommunication between all parties.

The annual RemTech Europe conference will take a "picture" of the European market and the evolutionary trends. Participation is free of charge.

The strong points of the innovative RemTech Europe event are its ability to combine the showcasing of ideas, products, projects and solutions with a deepening of the dialogue and understanding between suppliers, to help better match demand and supply.

SCIENTIFIC COMMITTEE

The scientific working group has been renewed and enlarged with the participation of universities and private companies.

It is made up of some of the most important players in the sector, including Italian Ministry of the Environment, Spanish Environmental Ministry (Foro de las Comunidades Autónomas sobre Emplazamientos Contaminados), the Norwegian Ministry of Environment, the Finnish Ministry of Environment, Brussels Capital Region and Irisnet, the Danish Regions, the Federal Office for the Environment (FOEN) Berne Switzerland, and more, the National Institute for Environmental Protection and Research (ISPRA) Italy, UmweltBundesAmt Germany, the Institute for Public Health and the Environment The Netherlands, the Slovak Environment Agency, Universities - Nottingham, Warsaw, Bourgogne - Poland and more, Common Forum on Contaminated Land in Europe (Environment Agency Austria), Network of Industrial Contaminated Land in Europe from Belgium NICOLE, Contaminated Land: Applications in Real Environments United Kingdom CL:AIRE, Working Group on Contaminated Sites and Brownfields France, and private companies, AECOM URS, ARCADIS.
