REGENERATION, INDUSTRY

www.remtechexpo.com

Lots of news, networking opportunities, comparison tables, excellences and innovations: we are pleased to introduce you to the 13th edition RemTech Expo!

The event which has a renewed and enlarged panel, nine thematic segments, an articulated exhibition of qualified services, a conference session with a high technical and scientific profile, an intense national and international networking activity, schools, academies, international hubs and innovation centres, is going to be held in Ferrara from the 18th to the 20th September.

After the introduction of three new thematic segments (RigeneraCity, ClimeTech and ChemTech), the establishment of four permanent tables for public-private comparison, and a fifth on the way, promoted by the National System for Environmental Protection Snpa and RemTech Expo (1. Remediation and Sediments, 2. Natural risks and Climate, 3. Circular economy and Waste management, 4. Industry and Innovation), the organization of the "off" sessions (Live Demonstration) dedicated to innovative technologies, the drafting of RemBook, a new tool of analyse of remediation market and impacts, the numerous Awards, from Degree, PhD, to Innovation, Smart Port, Smart River, many other news are coming soon starting from the Agenda.

The program is enriched by moments of wide sharing of knowledge, know-how, excellences and opportunities in the field of knowledge and interpretation of the subsoil with the **General States of Geology**. In a contest of continuity, the **General States of Infrastructures** will represent a moment of reflection and synthesis of high level regarding the design, construction and maintenance of safe and sustainable infrastructures. The **University and Research National Convention** will be the opportunity to move the attention on study and research activities, new professional skills, the representation of international success cases relating to the public and private sectors. The panel of innovations is crowned by the **General States of Sustainable Industry**.

If the **Call for Meeting** will be the opportunity to create real laboratories of thought and shared strategy, the RemTech Expo Excellence aims to enhance and promote through a detailed and meticulous screening work, the procedures, the innovations and innovative technologies related to the market.

At **international level** new projects will be launched and targeted paths with enterprise will be strengthened. As results of new relations gained among recent missions in the target Countries.

The first concerns the approach to Dubai2020 Expo. The second Country of interest for RemTech Expo is Azerbaijan where twinning actions are already planned with the national event Caspian Ecology, together with the organization of the Italo-Azeri Summit in September in the presence of governments, institutions and companies. Ferrara, during the Italy-India Technology Summit, led by the National Association of Industry Confindustria, with the participation of the Italian Prime Minister Conte, signed an important collaboration agreement (MoU) with the CII (Indian Confederation of Industry) to promote synergistic activities, events and meetings for the next edition of RemTech Expo.

With North Africa continues and expands the structured dialogue that has already led some Italian companies to the African continent after the bilateral meetings of September.

In these weeks, Early Booking is still active in order to allow you to join the most specialized exhibition in Europe with a special discount. **Early Booking** is open until December, 15!
