

REMTECH EXPO DIGITAL EDITION 2020

(21 - 25 September 2020)

www.remtechexpo.com

RemTech Expo becomes Digital, from the 21st to the 25th September on the occasion of the RemTech Week! This is the first international digital platform, dedicated to the issues of environmental protection and sustainable development of the territories.

RemTech Expo becomes Digital, from the 21st to the 25th September on the occasion of the RemTech Week! This is the first international digital platform, dedicated to the issues of environmental protection and sustainable development of the territories.

An absolutely new tool that will remain alive, visible and usable over time (life cycle platform), guaranteeing enhanced participation, innovation, internationalization, communication, continuity of action.

The platform consists of an entrance Hall for registration, a large Exhibition room full of information, services and technologies, ten parallel Conference rooms, the International Club for the organization of international bilateral meetings with foreign delegates, the Coffee lounge Alfredo's to enjoy some moments of relaxation and networking with the specialized community of RemTech Expo Digital.

All the events of the Conference rooms will be recorded and will remain visible on the platform as of course for the Exhibition company rooms.

For Exhibitors, internationalization will be enhanced, it will be possible to participate in conferences and play a role as protagonists, be contacted directly and offer a real "company experiences", as well as organize a technical meeting and of course access at Alfredos' coffee lounge.

Where possible, events in attendance will also be on the agenda at the offices of the Institutions which there is a full convergence with regards the definition of strategies and objectives.

Digital Demo is now available online for viewing all the characteristics and potentialities of the project, the modalities of participation in terms of special participation "packages", the official conference program and the Call for Abstract, open until June, 30.
