REMTECH EXPO

REMTECH WEEK

RemTech Expo is getting ready to become the first completely web-based event and the first worldwide digital platform, dedicated to the themes of the territory as a "complex system", integrated in an evolved, wide and systemic vision, with the possibility of special events in presence.

RemTech Expo is scheduled in five days (three plus two additional days), during the RemTech (Expo) Week from 21 to 25 September 2020.

Platform will remain alive after the event!

REMTECH EXPO

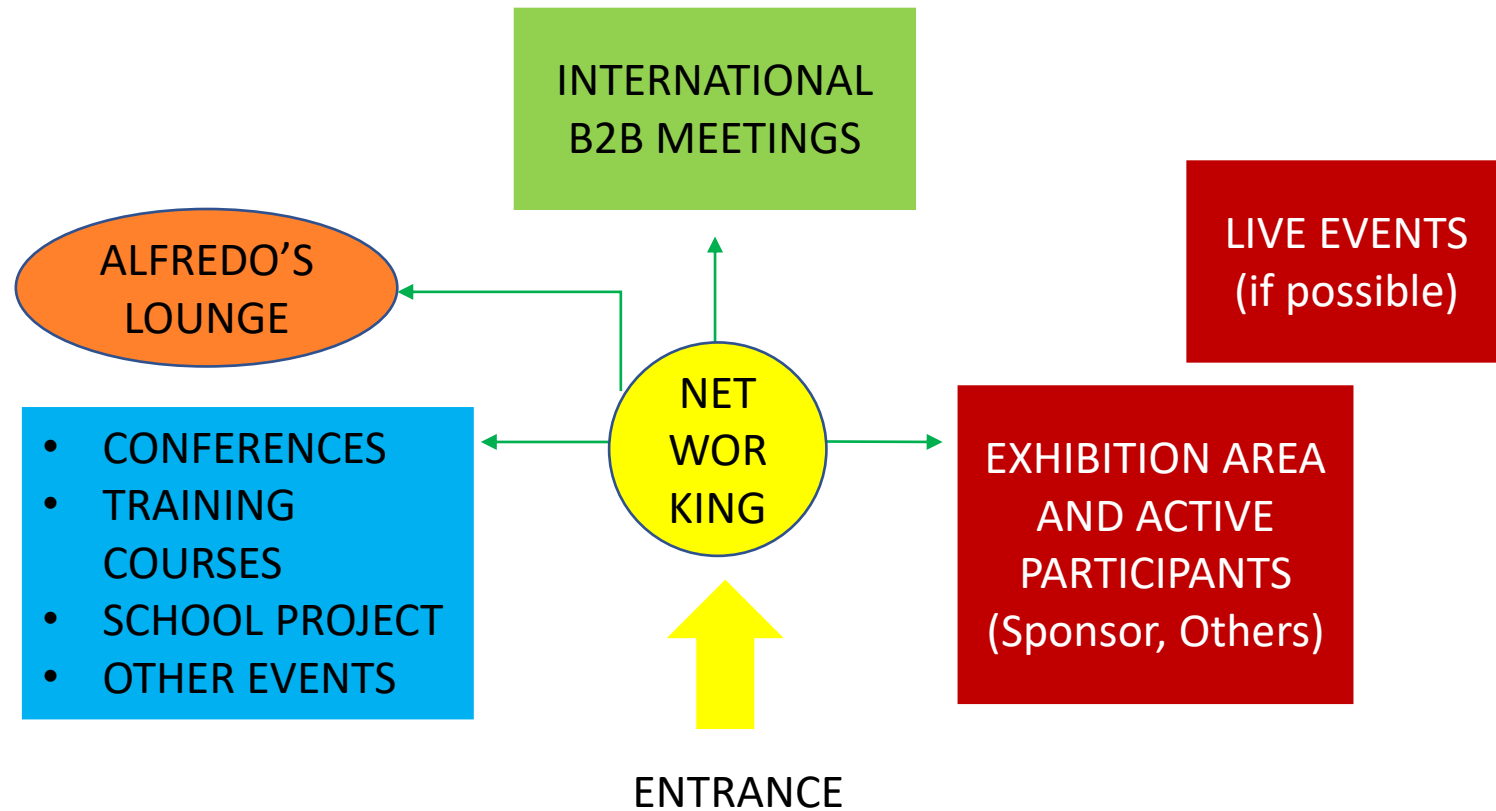

PLATFORM POWER AND OPPORTUNITIES

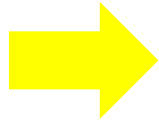

- **Potentiated specialized community** which enters in contact and starts to exchange, in terms of opportunities, confrontation, growth, evolution, progress;
- **Improvement of the opportunities** of networking and business and of the possibilities to start partnerships with selected and qualified key players, at national and international level;
- **Amplification of the shared message** and valorisation of best practices, specialized services, products, instrumentations, innovations;
- **Increased interactions time and visibility** of the excellences, connected to the life cycle of the platform;
- **Possibilities of company experiences**, site visits, implants visits, pilot tests show.

WEB OR FACE TO FACE EVENTS

Whenever possible, there will be moments and appointments in presence, at national level, according to a road map that we will build together, adapting in the best possible way the single steps and the objectives of the event (thematic meetings, networking meetings, live demonstrations, visits to construction sites, networking evenings, appointments, awards ceremonies, other).

Government representatives, administrations, associations, businesses, academics, foreign delegates, national and international guests will be invited.
