

CONDEREFF Activity 3.5

Workshop and Exchange of experience visit on **Selection, permits and monitoring of C&D waste management sites and facilities**

15 November- 9.30 am – 5.00 pm

Within the CONDEREFF Project ENEA and Lazio Region organize this international workshop and the sites visits to support interregional knowledge transfer on how public authorities can appropriately license and monitor construction and demolition waste (CDW) management sites and facilities and can boost the use of recycled products.

CDW policy framework at EU and national level, regulations, authorization and controls, will be presented and discussed in the first session. The framework of Italian GPP and Minimum environmental criteria, together with certification schemes and labelling supporting verification and compliance, will be presented and discussed in the second session.

Two virtual visits to an inert CDW recovery plant located in Rome and to the materials analysis and qualification laboratory, respectively, will complete the exchange of experience on authorizations and controls and on the procedures for the production of recycled aggregates of certified quality.

The CONDEREFF project brings together 8 partners from 7 EU countries to exchange experiences and practices on how to move forward from existing procedures on C&D waste management towards the adoption and further exploitation of the best practices and measures applied in the field. The project will enable the participating regions to advance their goals for resource efficiency and green growth through the proper management of C&D waste, which can boost demand for C&D recycled materials and support both sustainability and recycling in the construction sector.

Instructions for participants

To participate, please register at this [link](#).

You will then receive a confirmation e-mail with the link to access the event virtual room on Microsoft Teams.

AGENDA

MORNING

9.30 Greetings

Roberta Lombardi, *Councilor for Ecological Transition and Digital Transformation, Lazio Region*

Claudia Brunori, *Division Resource Efficiency - Department for Sustainability, ENEA*

9.50 Opening remarks

Construction and demolition waste management for improving resource efficiency: the Condereff project

Antonella Luciano, *Condereff project manager, Department for Sustainability, ENEA*

How to improve the policy instruments

Alessandro Drago, *Condereff project manager, Lazio Region*

10.15 REGULATIONS, AUTHORIZATIONS AND CONTROLS

Moderator: Laura Cutaia, *Department for Sustainability, ENEA, ECESP Leadership Group Construction and Infrastructure*

European regulatory framework on construction and demolition waste

Chiel Berends, *DG ENV b.3 (Waste Unit) European Commission*

The Italian circular Economy strategy and the national recovery and resilience plan

Giulia Magnavita, *CNR - IIA at the Italian Ministry of Ecological Transition (MITE)*

Italian regulatory framework and authorization procedures for CDW treatment plants

Paola Ficco, *Environmental jurist, ReteAmbiente*

End of waste criteria for construction and demolition waste

Valeria Frittelloni, *Italian Institute for Environmental Protection and Research (ISPRA)*

Critical issues and opportunities for recycling companies

Giorgio Bressi, *National Association of Recycled Aggregates Producers (ANPAR)*

11.30 SITE VISIT n. 1: Virtual visit to the Seipa recycling plant (Rome) and interview with the site manager

12.00 DISCUSSION AND PROPOSALS

13.00 Lunch Break

AFTERNOON

14.30 PRODUCT CERTIFICATION AS A TOOL TO QUALIFY RECYCLED MATERIALS AND BOOST CIRCULARITY

Moderator: Paola Altamura, *Department for Sustainability, ENEA, ICESP Sub-Group C&D*

Recycled aggregates in the Italian GPP and Minimum Environmental Criteria for buildings and roads

Sergio Saporetti, *Italian Ministry for Ecological Transition (MITE)*

Products certification as verification for compliance with GPP Minimum Environmental Criteria

Ugo Pannuti, *ICMQ*

ReMade in Italy: a product certification to verify the content of recycled material

Simona Faccioli, *Remade in Italy Association*

Recycled aggregates certification and potential uses

Antonio Bianco, *ABICert certification body*

Concrete production with recycled materials: national experiences

Margherita Galli, *Federbeton*

The use of recycled aggregates in infrastructures

Gabriele Baldassarre, Giulia Chiara Nicchia, *Italferr*

16.00 SITE VISIT n. 2: Virtual visit to the Conselab building materials analysis laboratory (Rome) and interview with the lab manager

16.30 DISCUSSION AND PROPOSALS

17.00 CONCLUSIONS

* to be confirmed
