CALL FOR ABSTRACTS

15-19 SEPTEMBER 2025

International Conference and Exhibition

<https://remtechexpo.com/remtech-europe/>

MAIN TOPICS FOR ABSTRACTS

First deadline 31 March 2025 – Second Deadline 30 June 2025

SUSTAINATHON  Sustainability: the road to global value	CHARACTERIZING SOIL HEALTH 	PFAS 	HRSC 	VAPOR INTRUSION 
MINING SITES & COAL MINES 	WASTE TO ENERGY 	GEO THERMAL ENERGY 	LANDFILLS 	CLIMATE CHANGE & SOIL NEXUS 
PORTS & MEGASITES 	RADIOACTIVE SITES 	MILITARY SITES 	WASTEWATER TREATMENT 	SEDIMENT MANAGEMENT 
SUSTAINABLE REMEDIATION 	ENVIRONMENTAL JUSTICE 	EMERGING CONTAMINANTS  DRUGS PESTICIDES 1,4 DIOXANE NANOMATERIALS	DIGITAL INNOVATION 	CHEMICAL SENSORS 
MICROPLASTICS 	DIFFUSE POLLUTION 	NATURE BASED SOLUTIONS 	ACCIDENT PREVENTION 	HUMAN HEALTH BIOMONITORING 
CIRCULAR ECONOMY 	DUE DILIGENCE 	DNAPL & LNAPL REMEDIATION 	RUNOFF TREATMENT 	DISTRESSED REAL ESTATES 

CONFERENCE

The prestigious RemTech Europe International Conference and Exhibition, dedicated to the markets and technologies of land and water remediation, will take place from 15–19 September 2025.

The event kicks off with two **fully digital** days (15–16 September), streamed online for global accessibility. The subsequent three days (17–19 September) will adopt a hybrid format, combining **in-person attendance** with comprehensive live streaming via the RemTech platform. This ensures that participants worldwide can engage with every session across all five days.

The primary goal of the conference is to facilitate the exchange of cutting-edge knowledge, innovative practices, and real-world case studies. RemTech Europe fosters the advancement of sustainable remediation processes and technologies by connecting technology providers with stakeholders seeking effective solutions. This platform also serves as a critical space for dialogue among policymakers, industry leaders, scientists, and other key players in the field. Designed to promote collaboration and knowledge-sharing, the conference will present an in-depth analysis of the European remediation market, including emerging trends and innovations. Participation in this annual event is **free of charge**, offering an unparalleled opportunity for professionals and organizations worldwide to engage in meaningful discussions, build partnerships, and explore transformative solutions for global environmental challenges.

EXHIBITION

RemTech Europe, held annually as part of the **RemTech Expo**, stands as a cornerstone of European environmental and technological innovation. The event focuses on the rehabilitation, regeneration, and sustainable development of territories, offering a premier platform for cutting-edge solutions and collaboration. With a mission to drive the growth of Europe, the event cultivates innovative ideas and actionable projects through close partnerships with leading international authorities. Its extensive community includes representatives from public administrations,

regulatory bodies, private enterprises, startups, universities, research institutions, trade associations, and professionals. Together, these stakeholders collaborate across a variety of **engagement platforms**, such as dynamic discussions, strategic networking, workshops, working groups, training programs, educational initiatives, technology demonstrations, and cultural events. The Expo is structured around **ten specialized thematic segments** and supported by **ten Scientific Technical Committees**, which bring together over 600 experts to guide the event's focus and outcomes. Additionally, the Expo attracts significant participation from industry, with more than **330 prominent companies** representing diverse supply chains. The program includes around **200 conferences and international gatherings**, featuring over **2,000 ambassadors and speakers** from across **105 countries** and spanning all six continents. RemTech Europe exemplifies the spirit of global collaboration, creating a **unique platform for innovation, scientific exchange, and sustainable progress**. Its comprehensive and expertly curated agenda ensures a vibrant convergence of ideas, technologies, and partnerships that shape the future of environmental resilience worldwide.

SEIZE THE OPPORTUNITY TO ATTEND AND PRESENT AT REMTECH EUROPE 2025

RemTech Europe is more than just a conference—it is a globally recognized platform where groundbreaking ideas, innovative technologies, and transformative solutions come together to address the most pressing challenges in land and water remediation, sustainability, and environmental progress. By participating, you'll gain unparalleled insights, foster meaningful collaborations, and showcase your expertise on a global stage.

WHY YOU SHOULD ATTEND

- **Gain Technical Insights:** Participate in dual-track technical sessions featuring valuable presentations and evidence-based findings. These sessions provide in-depth knowledge of the latest advancements in environmental science and engineering.
- **Engage with Leading Experts:** Network with carefully selected chairs and presenters, who are among the world's foremost authorities in academia, regulation, and environmental consulting.
- **Experience Cutting-Edge Innovations:** Stay up to date with cutting-edge trends and solutions showcased by multiple suppliers, offering answers to your most pressing challenges.
- **Expand Your Network:** Connect with hundreds of professionals at receptions, networking breaks, and other events, fostering collaborations that can drive your projects forward.
- **Contribute to Critical Dialogues:** Participate in dynamic exchanges of ideas and research to influence the future of environmental health and sustainability.

CALL FOR ABSTRACTS

Don't just attend—become an active participant in shaping the future of environmental innovation. Submit an abstract and share your research, solutions, and case studies with an international audience.

Abstracts should include the title of your presentation, the name(s) of the author(s)/speaker(s), their affiliation, and contact details (email and telephone number of the main speaker). Submissions must follow the official template and be submitted in .doc format (preferred) or .pdf.

Submission Deadlines:

- **First Call (Public Bodies, Universities, NGOs, Private Companies):** 31 March 2025
- **Second Call (Final Deadline):** 30 June 2025

PARTICIPATION FEE

A fee of €800 applies to private companies.

SPECIAL OPPORTUNITY FOR SELECTED ABSTRACTS

Abstracts selected for a special edition of the SETAC journal *Integrated Environmental Assessment and Management* (dedicated to RemTech Europe) will be published **at no cost to authors**, providing unparalleled visibility for your work.

TAKE ACTION NOW

Submit your abstract, attend the sessions, and unlock opportunities to drive meaningful change. Contact the RemTech Expo Office: secretariat@remtechexpo.com. Make your mark—join us in Ferrara, Italy, this September and be part of the transformation shaping the future of our planet.

18 September 2025

LIVE DEMO SESSIONS

A Hands-On Exploration of Environmental Technologies

We are thrilled to present a unique and immersive experience that promises to redefine the way we engage with environmental technologies and devices. **Our Live Demo Session is an experiential moment** that will leave you awe-inspired as you witness cutting-edge solutions in action. This session is designed to bridge the gap between innovation and application, allowing attendees to not only see but interact with a diverse range of environmental technologies and devices.

Discovering Environmental Technologies Up Close

Remtech Europe 2025 is all about exploring the latest advancements in environmental remediation and technology, and the Live Demo Session is the epitome of this mission. During this immersive experience, attendees will have the opportunity to see environmental technologies and devices up close and in action. This unique hands-on approach sets the Live Demo Session apart from traditional conferences and exhibitions. Imagine walking into a vibrant hall filled with state-of-the-art displays, each showcasing a different environmental technology or device. As you navigate through the space, you'll be able to witness these innovations at work, gaining a deeper understanding of their functionality, potential, and real-world impact. Live Demo Session will feature a wide array of environmental technologies that are shaping the future of sustainability.

A Truly Interactive Experience

What makes the Live Demo Session even more exciting is its interactive nature. Attendees won't merely be passive observers; they will have the unique opportunity to interact with the technologies and devices on display. This hands-on engagement allows for a deeper level of understanding and provides a chance to experiment with instruments that may have never been seen or used before. Are you curious about how a particular device works? With the guidance of experts, you can operate the equipment and gain firsthand experience. Whether it's testing a pollution-monitoring sensor, or a handheld-XRF, the Live Demo Session is your playground for exploration.

Learning from the Experts

The Live Demo Session is not just about the equipment on display; it's also a platform for knowledge exchange. Expert speakers and technicians will be on hand bringing a wealth of experience and expertise to the event, making it an invaluable learning opportunity for attendees. By engaging in conversations with these professionals, you can gain a deeper understanding of the technologies and their practical applications. The Live Demo Session is not just about technology; it's about breaking down barriers. Many people feel intimidated by complex environmental instruments and devices. This session provides a supportive environment for attendees to conquer their fears and gain confidence in using these tools.

REMTECH Europe

15-19 September 2025

Plenary sessions

Each session will be of **1h30** with two will be followed by an interactive dialogue where **chairs will be interviewers and speaker will be panelists**, with space for questions and thoughts from the broad audience.

Training courses

They will focus on specific hot topics with relevant **trainers** worldwide from European Commission, US Army Corps of Engineers (USACE), ASTM International, CL:AIRE, RNEST, Interstate Technology Regulatory Council (ITRC), NICOLA Africa, Australasian Land and Groundwater Association (ALGA), Associação Brasileira das Empresas de Consultoria e Engenharia Ambiental (AESAS).

SCIENTIFIC COMMITTEE

The SCIENTIFIC COMMITTEE composition represent many European and international institutions.

Christian Andersen, Diego Angotti, Thomas Aspray, Patrizia Bianconi, Iustina Boaja, Baran Bozoglu, Antonio Callaba de Roa, Said El Fadili, Marco Falconi, Nicolas Fatin-Rouge, Stephanie Fiorenza, Jorg Frauenstein, Wouter Gevaerts, José Carlos Gouvea, Paola Grenni, Nicola Harries, Deyi Hou, Róbert Jelínek, Edith Martinez-Guerra, Dietmar Müller-Grabherr, Paul Nathanail, Vicki Pearce, Jussi Reinikainen, Natalia Rodríguez Eugenio, Juliana Rolla de Leo, Pedro Sifuentes, Heidi Snyman, Claudio Sorrentino, Frank Swartjes, Nino Tarantino, Laurent Thannberger, Pavlos Tyrologou, Sergejus Ustinov, Mentore Vaccari, Antonella Vecchio, Erika von Zuben, Piotr Wojda.

NOT ONLY REMTECH EUROPE – ENJOY FERRARA AND ENJOY ITALY- ACTIVITIES & IDEAS CYCLETOURISM

Ferrara is the 'Italian city of bicycles'. Flat and surrounded by the water of the river Po and its tributaries, the entire Province of Ferrara is a richly evocative landscape in which land and water are the protagonists. From Cento to Comacchio, from the hinterland to the sea, there are hundreds of kilometres marked by a formidable network of cycling routes that wind between the city and the countryside, between protected oases and villages on the plains. There are simple and evocative routes such as the one along the banks of the Po River with restaurants along the way. The daily bicycle rental is 8 €. [LINK FOR MORE INFO](#)

FERRARA CITY CENTRE IS UNESCO WORLD CULTURAL HERITAGE

Ferrara's historic centre was awarded from UNESCO the prestigious title of 'Renaissance City' in 1995 as an 'admirable example of a city designed in the Renaissance, which preserves its historic centre intact and expresses urban planning canons that have had a profound influence on the development of town planning in the following centuries'. Some truly characteristic streets such as Via delle Volte, as well as the main square (today Piazza Trento e Trieste), beside which stands the Romanesque-Gothic Cathedral (1135). An extraordinary period began in the 12th century when the Este family settled in Ferrara, with the construction of the Castello Estense (1385), Palazzo Schifanoia (1385) and Palazzo dei Diamanti (1492). <https://whc.unesco.org/en/list/733> Guided tour costs 12€/person, [LINK FOR MORE INFO](#)

THE HEART OF PO DELTA PARK ON HORSEBACK

The Delta breed horses, present at the Spiaggia Romea stud farm and of Camargue derivation, are ideal for peaceful walks immersed in the nature of the Po delta, thanks to their meek and docile temperament. Accompanied by a specialized guide, you can go horseback riding in an environment of extraordinary charm. Cost is 24€ [INFO LINK](#)

THE COMACCHIO'S LAGOONS BY BOAT

Boat trips along the inner waterways of the mirror lagoon, a unique environment and spectacular home to flamingos. The guided tour includes a visit to the fishing stations. Cost is 16€. [INFO LINK](#)

RELAX IN THE BEACHES IN "LIDI FERRARESI"

26 km of coast with beaches of white and thin sand, the seven Lidi Ferraresi are an ideal destination for a vacation at the sea with children, for the lover of open air activities and to relax. On its 26 km of coast 7 lidos follow one another: Volano, Nazioni, Pomposa, Scacchi, Porto Garibaldi, Estensi and Spina. All of them are characterized by safe beaches and equipped for families, with golden sand and a sea which reverses gently. [INFO LINK](#)

ENJOY THE **INCREDIBLE ITALIAN FOOD** AND SPECIAL DELICACIES FROM FERRARA

Cappellacci di Zucca

These large, stuffed pasta parcels are filled with sweet pumpkin and a hint of nutmeg, traditionally served with butter and sage or a rich meat ragù. A true emblem of Ferrara's gastronomic heritage.

Pasticcio Ferrarese

This Renaissance-era dish features maccheroni pasta combined with a savory ragù and béchamel sauce, all encased in a sweet shortcrust pastry. The contrast between the sweet crust and the savory filling creates a harmonious blend of flavors.

Risotto con l'Anguilla

A luxurious dish featuring creamy risotto infused with the flavors of tender eel, a specialty of the Po Delta. This dish celebrates the bounty of Ferrara's waterways and is a must-try for seafood lovers seeking a truly regional delicacy.

Salama da Sugo

A bold and flavorful cured meat, the Salama da Sugo is made from a mixture of pork, red wine, and spices, encased and aged for several months. It's typically simmered for hours and served with creamy mashed potatoes, offering a hearty and indulgent experience.

Zia Ferrarese

This traditional salami is made from carefully selected pork cuts, seasoned with garlic, pepper, and spices. Aged for several months, it develops a bold and savory flavor.

Pampepato

A quintessential Ferrara dessert dating back to the Renaissance, this spiced chocolate cake is enriched with almonds, hazelnuts, candied fruit, and a touch of black pepper. Coated in dark chocolate, it offers a rich and aromatic bite that perfectly embodies Ferrara's festive traditions.

Torta di Tagliatelle

A unique dessert featuring layers of thin, sweet tagliatelle pasta atop a rich almond and sugar filling, all encased in a pastry shell. This cake offers a delightful combination of textures and flavors.

Torta Tenerina

A chocolate lover's dream, this dense and fudgy cake has a delicate, crackled crust and a moist, rich center. Often referred to as "tacolenta" for its sticky texture, it's a delightful way to conclude any meal.

Coppia Ferrarese

Recognizable by its unique twisted shape, this IGP-certified bread boasts a crunchy crust and soft interior, making it a perfect accompaniment to local salumi and cheeses.
